Kakinada, Andhra Pradesh - 533434, India

PROFESSIONAL SUMMARY

Software Developer with experience in full-stack web development and AI-driven applications. Skilled in building web applications using React.js, Node.js, Express.js, MongoDB, Python, and REST APIs. Hands-on experience in Deep Learning and Computer Vision through projects involving image segmentation, remote sensing image analysis, model training, and evaluation using PyTorch. Interested in Software Engineering, AI, Machine Learning, and Computer Vision opportunities.

INTERNSHIP EXPERIENCE

• Technical Hub Pvt Ltd

May 2023 - July 2023

Python Developer Intern

Surampalem, India

- Developed Python applications using object-oriented programming, exception handling, file processing, and MySQL integration.
- Built database-connected programs and gained practical experience in software development fundamentals.

EDUCATION

• Aditya College Of Engineering and Technology

November 2021 - May 2025

Electronics and Communication Engineering

Surampalem, India

- CGPA: 7.08

PROJECTS

• EO-SAR Change Detection System

May 2026

Tech Stack : Python, PyTorch, U-Net, ResNet34, Deep Learning

<https://github.com/GangaBalaSagar/EO-SAR-Change-Detection>

- Developed a binary change detection system for EO-SAR image pairs using a U-Net architecture with a ResNet34 encoder for pixel-level image segmentation.
- Built a complete training pipeline including image preprocessing, label remapping, data augmentation, model training, validation, and testing workflows.
- Implemented BCE-Dice loss, AdamW optimisation, learning rate scheduling, and early stopping techniques to improve training stability and address class imbalance.
- Evaluated model performance using IoU, Precision, Recall, F1 Score, and confusion matrix analysis while generating prediction visualisations for result assessment.

• Resume Analyzer

November 2025

Tech Stack : React (Vite), Node.js, Express.js, MongoDB Atlas, Google Gemini API, Vercel, Render resume-analyzer-zeta-ashy.vercel.app

- Built an AI-powered resume analysis platform that evaluates resumes against job descriptions and generates automated match scoring and feedback.
- Developed secure REST APIs with file upload handling, validation, rate limiting, and MongoDB Atlas integration for data management.
- Deployed the full-stack application using Vercel and Render, enabling an end-to-end resume screening workflow.

• ChatVerse AI

October 2025

Tech Stack : React.js, JavaScript (ES6+), Google Gemini API, Modern UI/UX

chat-verse-ai.vercel.app

- Developed a Gemini-powered chatbot application capable of generating context-aware conversational responses.
- Implemented chat history persistence using Local Storage and designed a responsive user interface for improved user experience.

SKILLS

- **Languages:** Python, Java, JavaScript
- **Frontend:** HTML, CSS, React.js, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **AI/ML:** PyTorch, Deep Learning, Computer Vision, Image Segmentation, NLP
- **Tools:** Git, GitHub, VS Code, Vercel, Render, MS Office Suite
- **Soft Skills:** Collaboration, Communication, Analytical Thinking, Problem-Solving, Time Management, Attention to Detail, Adaptability.

CERTIFICATIONS

- Pearson IT Specialist Certifications: Python, HTML & CSS, JavaScript
- Tata GenAI Data Analytics Simulation (Forage)
